We are fully equipped with modern chalets, a restaurant area, a fully stocked bar with a Licence 4, a large 20m x 10m swimming pool plus two smaller baby pools, tennis court and even mini golf!

This region of France is often referred to as the 'Grand Canyon' of Europe, and is well known not only for its spectacular scenery, but also for its excellent and varied outdoor pursuits.

The River itself winds its way through steep canyon walls, 26km of which is cut off from the gorge road high above, making this historically a popular region for canoeing, climbing, cycling and walking.

Wine is also one of the Ardèche main exports and the Côtes du Rhône vines supply the region with some of its finest. Luckily our campsite is near several wonderful vineyards, with wine tasting a must. Very rarely does the price exceed five Euros a bottle - and that's for a high quality wine, so a couple of these are sure to make their way into your luggage!
